Full-stack software engineer with over 2 years of experience with Angular, Spring Boot, & MySQL technologies in the financial technology industry. Dedicated professional with a proven track record of delivery, communication, and efficiency. Strong computer science fundamentals from a comprehensive emphasis Bachelor of Science degree in Computer Science from the University of Wisconsin-Whitewater.

## CAREER EXPERIENCE

### Software Engineer I

June 2022 – December 2022

*Fidelity National Information Services, Inc.*

*Milwaukee, WI*

- Re-use oriented software engineering work on a large-scale Angular & Spring Boot application
- Main work done on enhancements to existing components as well as creating new components built off of existing infrastructure and fixing defects
- Lead delivery of a complicated debit feature, specifying the merge order of stories and providing knowledge transfer sessions on difficult technologies

### Technologist Engineer I (FIS University Program)

June 2020 – June 2022

*Fidelity National Information Services, Inc.*

*Milwaukee, WI*

- Apart of an accelerated program to develop and grow the latest and most passionate fin-tech talent with on-the-job opportunities and training in a fast-paced industry
- Worked alongside three other FIS developers to program an Angular and Spring Boot application using a system of internal debit APIs
- Developed a batch processing sub-module application that is able to read, cross-check, and insert data off to submission to internal teams

## TECHNICAL SKILLS

### PROGRAMMING LANGUAGES

**Fluent:** Java, HTML, CSS, TypeScript, SQL

**Familiar:** C++, C#, C

### TECHNOLOGIES

Angular

NgRx

Spring Boot

NodeJS

Git

ELK Stack

## **EDUCATION**

### **University of Wisconsin-Whitewater**

*Bachelor of Science in Computer Science, Comprehensive Emphasis*

3.779 Cumulative GPA, Magna Cum Laude Graduation Honors

UWW Dean's List<sup>1</sup> (Fall 2016 – Spring 2020)
